Theses in the format name-surname.doc (for example, O.A.Shevchenko.docx) should be added in the appropriate section of the registration.

Please note that all submitted theses will be analyzed for similarity in the **StrikePlagiarism.com** Anti-Plagiarism Internet System.

The minimum percentage of **uniqueness of theses** text for admission to publication in the conference collection is 70%.

The text of theses in the name-surname.docx format must be formatted in accordance with the following requirements:

Requirements for the design of the header (12 pin, in the center):

1. Authors of the work (initials before the last name, full name of the speaker, if there is a co-author, emphasize the last name of the speaker).
2. The title of the work (in capital letters, bold).
3. Name of the department.
4. Institution of higher education, city of study, country.

Requirements for text design:

- The length of theses (without a title) should be within 3000 characters, including spaces and punctuation marks, aligned across the width, without indenting the first line. Font - Times New Roman, 12 pin. Linespacing - 1.0. Margins on all sides - 2 cm.
- The structure of the printed work should include relevance, purpose, materials and methods, results, conclusions, highlighted in separate paragraphs, in bold.
- The printed work should not contain tables, formulas, graphs.
- The work must not have been published before.

For 1 participant, the number of scientific publications (theses) should not exceed 3 (including co-authorship) or 2 within the framework of one DIRECTION (including co-authorship). The organizing committee is not responsible for stylistic and spelling errors.
